About IR.INC

IR.INC Capital Markets Advisory & Services works with its clients to develop and deploy strategic plans and build industry alliances while providing shareholder introductions and solutions. The Company also provides a number of traditional Investor Relations Services. You can find out more about IR.INC here www.irinc.ca

About VID

VID events, conferences and content are focused on the investor. We create meaningful opportunities for investors to have authentic discussions with companies from a cross section of industries. Our events provide investors with the opportunity to have informative conversations and gain fresh perspectives with company executives, and we feature keynotes from some of the industry's best thought leaders. At VID, our goal is to help investors make informed decisions. You can find out more about VID here <https://vidconferences.com/>

About Laurentian Bank Securities

Laurentian Bank Securities expanded its product offering in May 2006 with the inception of an Equities division focusing on Canadian-listed companies, with a full-service offering including research, sales, trading, and investment banking. This strategic initiative compliments Laurentian Bank Securities' highly-regarded Fixed Income division and sits as a cornerstone for the firm's long-term growth strategy.

Our mission consists of sourcing investment ideas that will generate higher returns for our clients. We remain true to Laurentian Bank's culture, putting clients first and encouraging independent thinking. Our expertise focuses on the analysis of companies with an emphasis on identifying emerging investment trends and the underlying companies that offer sustainable growth, attractive risk-adjusted valuations and which are led by strong, driven management teams.

Timely and insightful research remains the primary driver for the group, along with providing value-added service to both our corporate and institutional clients. We currently cover six sectors considered to be of high importance and an integral part of the Canadian economic engine. Presently, the sectors covered are: Base and Precious Metals, Industrials & Transportation, Utilities, Diversified Technology, REITS and Special Situations.
